Travel Data Shouldn't Be This Hard

If you're still wrestling with spreadsheets and outdated reports, you're not alone.

Hours Wasted Every Week

Your team spends days building manual reports instead of analyzing insights and making strategic decisions.

Savings Lost in the Noise

Policy violations and cost-saving opportunities are buried in thousands of rows. By the time you find them, it's too late.

Data Scattered Everywhere

Travel data lives in multiple systems. Getting a complete picture means endless exports, merges, and pivot tables.

There's a better way.

Lode brings all your travel data together and makes it instantly queryable—in plain English.

Everything You Need to Master Travel Data

Built for travel professionals who demand speed, security, and actionable insights.

AI-Powered Analytics

Ask questions in natural language and get instant answers. No SQL required. Our AI understands travel data and surfaces insights automatically.

Policy Compliance

Upload your travel policy and automatically flag non-compliant bookings. Get real-time alerts and enforce rules before spending happens.

GDPR & Data Security

Enterprise-grade security with complete data isolation. Your data stays in your region, encrypted at rest and in transit. Full GDPR compliance built-in.

Real-Time Queries

Query millions of records in seconds. Our modern data architecture ensures lightning-fast performance, even with complex analytical workloads.

Multi-Tenant Architecture

Perfect for TMCs and resellers. Manage multiple clients with complete data isolation, white-label options, and granular access controls.

Custom Dashboards

Build and share custom dashboards tailored to your needs. Track KPIs, benchmark performance, and visualize trends with interactive charts.

Built for Your Business Model

Whether you're a TMC, reseller, or corporate travel manager, Lode adapts to your needs.
